In spring birds chirp and lambs jump  
Calves kick green. Cric Reto chirp and  
they also make a weird sound.  
Flowers come out of the garden

My cat purrs all the time  
in spring. When her fur falls

off birds build nests. Spring is

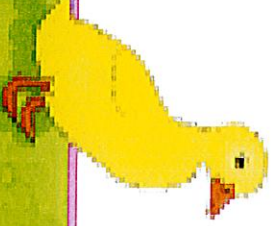

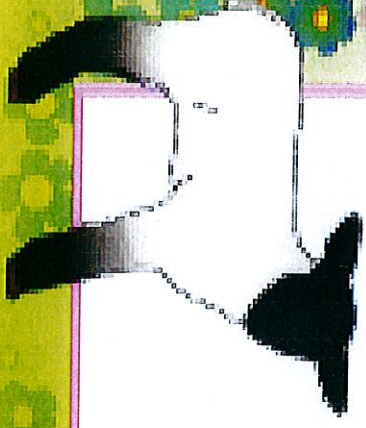

awesome.  
I am

**YOU'RE A  
WHIZZ**

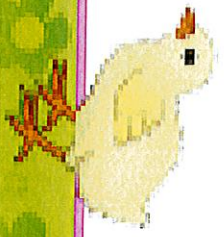

Spring is hot. Lambs jumping.  
Flowers grow and calves get born.  
Lambs get barks for birds  
chirp on the big brown trees.  
Eggs chirp too. It is sunny  
sometimes.

Spring - Spring is fun to run around and  
feel the air. Flowers grow everywhere  
filling the place with colour. Trees grow  
their green leaves back. Cats and rabbits  
get a new coat of fur. Animals are born.  
Crickets chirp in the trees. I love spring.

Elise

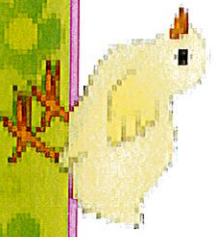

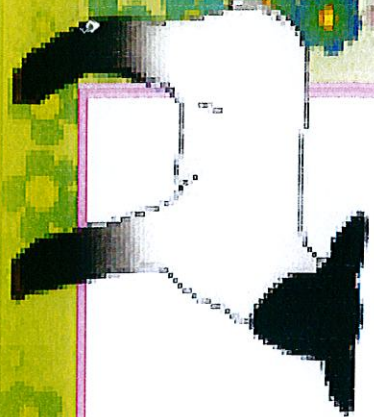

Well Done

3/9/15  
Spring is butterflies flying fast  
through the blue sky. Birds start to  
build their nests and chickens and  
baby animals are born. It is getting  
warmer.

Spring is when animals get born. I said  
lambs are born in spring and flowers rise  
up too. Rabbits fur comes off cats do too.  
crickets chirp in spring at night. I love spring

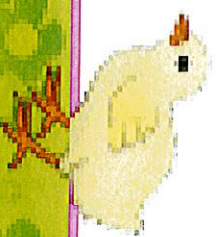

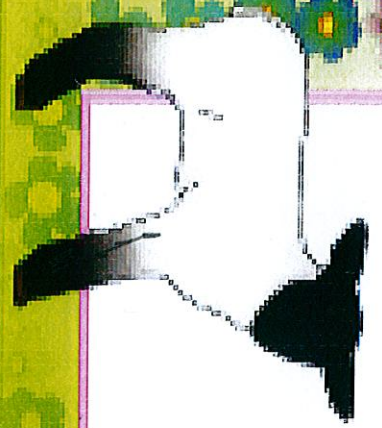

Page 7/9/15

Spring is cool because the  
leaves grow dark and the  
trees little leaves get brown.  
They jump high.

Spring is when I can't get my  
chicken. She sits on her eggs  
The birds build their nests.

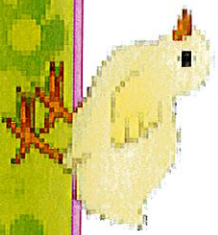

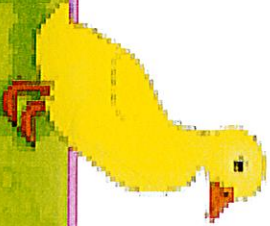

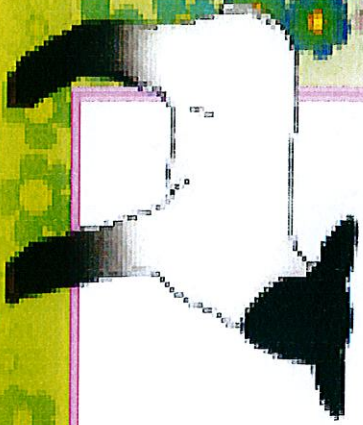

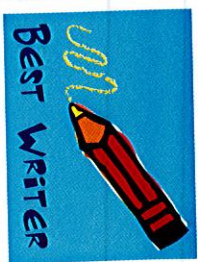

Tari

Birds chirp in the big trees.  
Lambs are born and calves too.  
Sheep jump high and cows kick hard.  
Flowers grow higher and higher.  
Some animals start to wake up from their sleep.  
Trees grow new leaves.

Dylan

Spring is beautiful because we have  
ice blocks.

And black birds are born in spring  
Daffodils grow bright and yellow.
